

Maria Loucraft Biography

Maria has 35 years of experience in Laboratory Management, Field and Laboratory Quality Assurance, Utility Management, Regulatory Compliance and Process Improvement. She has a Bachelor of Science in Chemistry from the University of South Florida and is a Lean Six Sigma Blackbelt. Maria is an Environmental Compliance Specialist for Broward County Water and Wastewater Operations Division. She is also Vice-Chair Elect for Region 7 for the Florida Water and Pollution Control Operator Association and serves as a trainer in the areas of Reuse, Backflow and Management/Supervision. Maria also serves on the Florida Water Environment Utility Management Committee.

Her passion is to improve and optimize processes to achieve effective and efficient operations. This includes conducting assessments, facilitating process improvement projects, and conducting training in these areas.

Maria has worked in water, wastewater, reuse, and stormwater utilities, as well as the South Florida Water Management District.
